

A piece-of-art luminaire with three notable characteristics: sophisticated design, flexibility and high performance. It's unique trapezoid design raises the architectural interest and impresses the observer. There are three frames with different dimensions in which 1, 2 or 3 modules of light sources can be intergrated. Thanks to it's optimal optical system, it offers precise, uniform light distribution and excellent lighting quality.

Technical Features

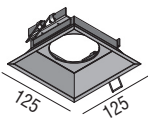

- Steel body, painted electrostatically in selected colour or plated.
- Outer adjustable ring from die-cast aluminium, for easy lamp replacement.
- Inner adjustable ring from die-cast aluminium.
- Easy mounting with clips.
- Big range of aluminium reflector, lens, diffusers.
